NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

This is the big weekend in Austin for the track team and from what we can tell there should be a pretty good turnout of Hamlin fans on hand to root their Pipers on to a State Championship.

The only problem is that the whole town of Hamlin could be down there in that huge stadium and the boys would never know it.

We extend our best wishes to Coach Bill Grissom, Milton and Johnny Jones, Bill Cork, Albert and Alfred McAfee and David Willis and wish them the best of luck Friday evening. Hope to be on hand to extend these wishes personally.

From what we can learn from those who were able to be in Austin last Wednesday for the hearing on the hospital district bills, it seems that the outlook is a little more favorable now. Hopefully, the subcommittee will come up the three bills we want this week sometime.

Maybe, with a little luck we can get the bills on out of the Senate and over into the House without too much delay. Time is fast running out for this session of the Legislature and we cannot stand any more delays like this one in the Senate Subcommittee.

Billy Vinson, representing the Jones County Taxpayers Association — what ever that is, has been to Austin twice now fighting the hospital district bills. We can only wonder who is paying his expenses back and forth since he has already spent more money than his taxes would be for the next 20 years.

A few weeks ago, right in the big middle of this beef boycott mess, the local FFA Chapter held their annual Parent-Son banquet and the menu included chicken. In defense of the FFA — they have always served chicken at these banquets so this was not a matter of taking part in the beef boycott, but was just one of those things that happen sometime.

But this was just a little too much for Mr. and Mrs. Cecil Sellers who are honorary members of the FFA and quite active in fighting the beef boycott in this area.

So last week when the district FFA banquet was held here, the Sellers decided that they should be serving beef instead of chicken and they promptly donated the beef.

That's one way to avoid eating chicken at a banquet.

Off and on for years there have been a number of local people trying to start a United Fund Campaign here without too much success. It would seem to us that this might be a good time to make a new effort in this direction.

It seems that we have had about four or five fund drives within the past month and would suspect that those who have worked on nearly every one of them would be about ready for a change.

We ran across the following in the Denver City Press last week in the column by the publisher Gene Snyder. He notes that the Watergate case and the investigation of the same is going on at the same time as the "Pentagon Papers" trial and he is a little upset at the handling of the two issues.

"We think it is important that the facts be found out about the Watergate affair. We also think that those responsible should be punished. However, as far as we are concerned, this is mostly a political matter, with embarrassment and ridicule more important to the investigators than punishment for the crime.

"In our feeble opinion, theft of top secret papers from the Pentagon — a crime committed against the

THREE SEPARATE BILLS—

Senate Committee Okays Hospital District Bills

AUSTIN — Bills allowing creation of three separate hospital districts for Jones County passed the Senate Human Resources Committee

Ray Huling Services Held Here Tuesday

Ray Huling, 72, a lifetime resident of Hamlin, died at 12:05 p.m. Monday at Hamlin Hospital. He had been hospitalized five days. He was owner-operator of Huling Service Station for 30 years. He was a member of Hamlin Volunteer Fire Department for 20 years and served with the Civil Defense. He also served as a city policeman at one time. Services were held at 4 p.m. Tuesday at First Baptist Church. Officiating were the Rev. Howard Jones, pastor, and the Rev. Marshall Stewart, pastor of the Church of the Nazarene.

Burial was in Hamlin Memorial Cemetery under the direction of McCoy Funeral Home.

Born Dec. 8, 1900, in Anson, he was the son of the late Mr. and Mrs. W. A. Huling. He married Artie Arrington in Hamlin Jan. 21, 1928.

He was a member of the Baptist church.

Survivors include his wife; one son, George Frank of Garland; one daughter, Mrs. Tommy (Dorothy) Richey of Hobbs, N.M.; one brother, Van Huling of Hamlin; one sister, Mrs. H. P. (Pernia) Bishop of Stamford.

Pallbearers were Tom Pritchard, Pete Bond, Weldon Hudson, Frank Allen, Lee Hastings, and Buster Shelton of Haskell.

Tuesday, with one senator saying, "It seemed to be worked out about as well as it could with the competing factions out there."

The three bills would allow Hamlin, Anson and Stamford to form their own hospital districts, all within the boundaries of Jones County.

The portion of the original bill creating the Hamlin District, which had included some land in Fisher County, was deleted from the Hamlin measure.

The committee also passed an uncontested bill creating a Fisher County Hospital District, and tabled SB 451 which would have allowed an election on a countywide hospital district for Jones County.

Jones County has been embroiled in controversy the past few weeks over the hospital district issue, which was originally introduced by Sen. Jack Hightower of Vernon.

Hightower said he had turned the issue of whether to have three small districts or one large district over to the citizens and the public health and welfare subcommittee to work out.

Sen. Bob Gammage of Houston, chairman of the subcommittee, said the citizens had worked it out the best they could among themselves.

One aide said the committee wanted to approve the three-district concept last week, but that it got too confusing with over 50 people from Jones County crowded into the small hearing room.

Sen. Betty Andujar of Fort Worth originally objected to the Stamford district bill, but later asked the committee to pass the bill, saying she had heard only one side of the issue and did not feel she should interfere in the local affairs of Jones County.

Opponents to the measures had contended that three districts were not needed in a county of 16,000 persons, that there would not be a sufficient tax base for three districts and that neighbors across the road from each other could be paying greatly differing taxes to two separate hospitals.

The House Inter-Governmental Affairs subcommittee was scheduled to hear the hospital district bills Tuesday, but the subcommittee delayed action pending arrival of the Senate bill from the House.

Rep. Elmer Martin of Colorado City is House sponsor of the three bills.

The three measures will probably come up on the Senate floor and uncontested calendar scheduled to be heard Friday.

Pipers to Run for State Title Friday

The Pied Piper track team will be in Austin Friday competing for the State Championship and the possibility of seven gold medals. The action will get underway at 7 p.m. in Memorial Stadium on the University campus.

Both the Class AA and AAA meets will be held Friday evening with the other Classes competing Saturday.

Track Coach Bill Grissom will have six qualifiers in the meet in seven different events. The team will have the possibility of 90 points which leads the list of schools in the AA division. Next is Elgin with 70 points.

Bill Cork will open the action for the Pipers at 7 with the high jump. His 6'4" jump at Regional leads the eight qualifiers in this event and he has cleared 6'7". His best jump came at the district meet.

The running events will get underway at 7:30 with the 440 relay. The Hamlin team of Alfred McAfee, Johnny Jones and Bill Cork ran a 42.5 at Regional but have since cut this time to 41.7 at Lubbock. McGregor also qualified with a 42.5.

Johnny Jones' qualifying time of 9.7 in the 100 was the best in his class with four qualifying with a 9.8. His 22.2 qualifying time in the 220 is second best behind Mario Arellano of Premont with 21.6. Jones' best time in this event came at Lubbock where he ran a 21.7.

Cork's 48.0 in the 440 at Regional is far away the best time of the qualifiers in this event as the next best time is 49.1 by Edwin Price of Elgin. Running in the 330 in-

termediate Hurdles, David Willis will have his work cut out for him as he not only will have to beat Scott King of Winters again but will also have to overcome the defending champion Shifton Baker of Elgin. Baker qualified with a 38.1, Willis with a 38.6, and King with a 38.9.

Hamlin's mile relay team of Milton Jones, David Willis,

Alfred McAfee and Bill Cork own the best qualifying time in the state with their 3:21.6 that they ran at Odessa. The second best time is by Elgin who ran a 3:22.7.

Hamlin's possible 90 points, and Elgin's possible 70 points are followed by DeKalb with 66, Seymour, Bellville, Ozona and Boling each with 50, and Refugio with 48.

Ellis West of the City Sanitation Department is requesting that residents place grass cuttings and other yard waste in boxes or plastic bags in the alleys.

Whether or not the people of the United States should have had knowledge of those papers is immaterial to us. They were labeled top secret, and theft of them is as serious as if the theft had been of plans for a new secret weapon or aircraft.

"Much more noise is being made on national tv and in the liberal newspapers about the Watergate Case than about the Pentagon papers. The New York Times and the Washington Post, both of whom are editorially indicting everyone and anyone they can in the Watergate affair, thought they were great servants of the American people when they printed the contents of the top secret documents stolen from the Pentagon.

NEW FRONT LINE FOR PIED PIPER BAND — Dwayne Weaver, left, drum major, will be leading the Pied Piper marching band during the 1973-74 school year. Majorettes selected in tryouts Saturday are, from left, Dana Gallagher, head majorette, Elaine Kelley and Debi Cary.

Highlights AND Sidelights

AUSTIN — Legislators have a lot more left to do than they have done so far in almost four months.

Of the nearly 1,700 House bills and almost 1,000 Senate bills introduced, fewer than 100 actually have reached the Governor's desk.

If the 63rd Legislature accomplishes as much as the 62nd did numerically (more than 1,000 bills passed), about 99 percent of the floor action must be capsuled in the brief period before the May 28 adjournment deadline.

Slow-moving debate in the House — where more than 200 amendments were offered — on the \$9.7 billion appropriation bill fanned some speculation that a special session may be necessary to complete mandatory work.

Gov. Dolph Briscoe, who holds the key to calling such a session, has made clear he doesn't want one.

Senators banged through their \$9.5 billion version of the state budget in an hour and 21 minutes.

In spite of the two weeks spent on the House spending bill, Speaker Price Daniel Jr. maintained "plenty of time" remains to consider other "must" legislation.

Daniel predicted House passage of these measures before May 28:

Mass transit.
Drug law reform.
Penal code revision.
Water district reform.

Neinda Philosopher Does Some Spring House Cleaning and Gets His Desk Partly Cleared

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One reports on some odds and ends this week.

Dear editor:

Notes from a spring house-cleaning of my desk: I'll never understand politicians. Here some of them are trying to get a law passed giving reporters the right to

refuse to tell what they know, whereas in some cases they'd be a lot better off with a law keeping reporters from telling what they know.

Despite the fact the economy is booming, there are six major railroads now bankrupt. Such a statistic is bad for national morale. Why doesn't Washington get the six to merge and then we could claim we have only one bankrupt railroad?

A new word has come out of Washington that I'm in favor of. On finding what he'd been saying for weeks was wrong, a

press secretary explained to reporters that from now on all those other statements are "inoperative." I hope you will do everything you can to spread the use of this word. I'd like to be able to get by with telling my banker that my promise to pay that note six months later is now inoperative.

Some cities, trying to whip traffic congestion, are considering passing a law making it illegal for a commuter to come into the city in a car by himself. He's got to have three or four passengers with him or he won't be allowed in. This might reduce the number of cars, but not the number of people. What a choice: having to decide whether you want to be swamped by cars or people.

You can't get ahead of scientists. They've announced they're going to attempt to predict earthquakes, but I notice they've picked a spot where earthquakes have occurred periodically for years. If weather forecasters were as smart they'd stick to predicting the weather in the Sahara desert.

This doesn't quite clean off my desk, there're still some more things stacked on it, but I've learned, even if the Watergate people haven't, it doesn't pay to dig too deep.

Yours faithfully,
J.A.

Cold Weather Slows Cancer Drive Thursday

Because of cold windy weather Thursday, workers in the door-to-door drive for the American Cancer Society were hampered in their efforts to raise money in the annual campaign.

Contributions through Tuesday were reported as \$549.25. Last year's total for Hamlin exceeded \$1,500. Goal set for this year is \$1,000.

Anyone who has not been contacted by one of the workers may leave their contribution with Mrs. W. L. Hunter Jr., local chairman, at Turner Insurance Company.
